

## **PASSPORT**

The Maryland Geocaching Society and the National Park Service welcome you to the 2016 edition of Cache Across Maryland! Each CAM 2016 geocache contains an attribute icon which will be required in order to determine the location of the CAM 2016 Picnic. The icons can be found on the inside front covers of the logbooks as well as on the inside surfaces of the cache containers. **Keep a record of which attributes you find by circling them below.** By the time you have successfully completed CAM, you should have a total of ten attributes circled. The CAM Decoder will publish during the first week of May. All ten attributes must be entered into the Decoder to obtain the coordinates to the picnic. Any geocacher who completes all ten CAM geocaches **and attends the CAM picnic on May 14th** (GC6A9TC) will receive a Certificate of Completion and a CAM 2016 Geocoin. We hope you have an enjoyable CAM!
